

THE MOST **RUGGED** BOARD IN THE FOREST.

# A Little Rugged. A Little Wild. A Lot Of Board.

In the islands of an Alaskan archipelago, the Kodiak bear rules the forest. The largest of the brown bears, Kodiak roams the wild, hunting, foraging and protecting his home. An encounter with a Kodiak bear is sure to astonish, as its sheer size dwarfs its rugged surroundings.

Kodiak by Thermory combines a natural look and feel with impressive size and unequalled durability, for a bold real wood board that rules the forest.

KODIAK SPRUCE DECKING AND CLADDING - WIDE AND RUGGED.

# KODIAK

## WIDE AND RUGGED KODIAK.

Kodiak gives your project the bold allure of the wilderness. Knotted spruce boards retain their natural appeal, while their extra-wide size allows for faster installation. The brushed texture adds ruggedness without sacrificing the refined look you crave.

- ▶ 1 x 8 cladding boards for modern lines with fewer seams
- ▶ 5/4 x 8 decking boards, extra-wide for fast installation
- ▶ Brushed for rustic texture
- ▶ Thermally modified spruce for 25+ years of rot resistance
- ▶ Can be installed with hidden clips (no visible screws!)

### ROT RESISTANCE

25+ years of rot resistance

### STABILITY

Reduced absorbency

### DISTINCTIVE KNOTS

The unmistakable look of spruce at its best

### SUSTAINABLE

Responsibly harvested and chemical-free

### TERMITE

No bugs allowed

### THERMALLY MODIFIED

Naturally enhanced using only heat & steam

A high-angle photograph of a modern wooden deck. The deck is made of wide, light-colored wooden planks with a visible grain and knots. Four white, modern-style chairs with a woven backrest are arranged around a small, round, white glass-topped table. The deck is bordered by a dark metal railing with glass panels. Beyond the railing is a dense, lush green forest with various types of trees and foliage. The overall scene is bright and natural, emphasizing a connection to nature.

## THE LOOK OF THE WILDERNESS, THE SOPHISTICATED PERFORMANCE YOU NEED.

The stunning knotted spruce, wide boards, and rugged brushed texture provide a bold back-to-nature look that's bound to be noticed. Unlike other softwood products, Thermory's thermal modification process ensures there's no visible sapwood – just the consistent color of heartwood from edge to edge.

**1 X 8 CLADDING – GROOVED C15 (JEM)**

APPLICATION: **CLADDING**

USE: **INTERIOR, EXTERIOR**

SPECIES: **SPRUCE**

THICKNESS: **.79**

WIDTH: **7.3**

COVERAGE: **6.9**

INSTALL METHOD: **60mm FG SCREW**

TEXTURE: **BRUSHED**

FINISH: **UNFINISHED**

**1 X 9 CLADDING – GROOVED C15 (JEM)**

APPLICATION: **CLADDING**

USE: **INTERIOR, EXTERIOR**
