

SAUNA 
by THERMORY®

It's better
in here.

Warm to the possibilities.

If you only know saunas for their restorative benefits, you have so much more to experience.

For over 2,000 years, sauna has been a way of life all over the world. More than a place to shed the stress and worry of the day, true sauna culture is about forging connections between people without inhibition or distraction.

Now, you can create a sauna culture of your own with our range of meticulously and responsibly-crafted saunas. Have a custom-designed Thermory sauna built inside your home or enhance your outdoor environment with a rustic barrel sauna. Perfect for relaxing or entertaining, saunas give you a unique space to call your own and share with others.

But no matter how you sauna, once you own a Thermory, you'll wonder how you ever got along without one.

A round for you
and your friends.

Chances are, there's a room in your house where everyone always ends up. But once you add a barrel sauna to your landscape, you'll want to move the party outside. Our larger models offer room for six and the rounded walls promote even heat distribution for everyone's comfort.

WHAT MAKES THERMORY
BARREL SAUNAS UNIQUE?

Thermally Modified

Ours are the only thermally modified barrel saunas in North America. So, you get the beauty of real wood, naturally enhanced with only heat and steam, for unequalled durability and stability – even in changing weather conditions. It's the most ideally suited wood for your sauna experience.

Functional Design

Thermory Barrels are larger than standard barrel saunas. With a diameter of more than seven feet, the spacious interior offers a greater height for standing and deeper benches for laying down. Plus, thermal modification ensures the wood is never too hot to sit on.

Easy Assembly

We pride ourselves on our attention to detail — right down to our installation guide. Your Thermory Barrel comes with pre-cut and pre-milled staves and cradles, so there's no cutting necessary. In less than a day, you and a few friends can have your sauna fully constructed.

We don't mess
with tradition.
Or mother nature.

The right wood

We look no further than the birthplace of sauna culture for beautiful Nordic spruce to craft your Thermory Barrel. Unlike cedar, which can become rough and unattractive over time, Thermory Nordic spruce's proven rot resistance and ability to withstand the elements creates the perfect marriage between outstanding design and structural integrity.

The right way

Our Nordic spruce is harvested exclusively in Scandinavia, a region celebrated for its responsible forestry practices. And wood is the only naturally renewable building material that doesn't generate hazardous waste. So, when you choose a Thermory Barrel – or any Thermory product – you're investing in the health of our planet.

SAUNA^o

MATERIALS by THERMORY[®]

Make it your own.

Show off your style with a range of natural wood panels and boards to create a unique sauna experience within your home.

APPEARANCES MATTER

Thermory offers stunning wood options that outshine cedar for a sauna that's as beautiful as it is durable. Alder and Aspen surround you with gorgeous color and texture without overheating.

ADD YOUR PERSONAL TOUCH

We're here to help you design and build a Thermory Sauna that suits your personal style, right down to the smallest accents. Speak with your sales representative about additional components to add the perfect finishing touch.

Wall panels.

Create unique combinations with a variety of wood species, finishes, styles and dimensions.

1x3 STP PROFILES

ACTUAL SIZE: 59" x 3.5"

The STP profile offers an elegant wall surface for your sauna, with narrow grooves between broad cladding boards with rounded edges. It can also be combined with other profiles to create your own unique look.

1x3 STS4 PROFILES

ACTUAL SIZE: 59" x 3.5"

STS4 wall panels feature narrow, angular grooves for a bold look and feel. They can provide a striking contrast when used alongside other profiles.

Bench boards.

Build your own benches with a large selection of boards in various woods.

5/4x3 SHP PROFILES

ACTUAL SIZE: 1.1" x 3.5"

SHP profiles are meticulously milled for a smooth and comfortable surface.

ALDER

Known for its reddish tone reminiscent of North American cherrywood, alder is a beautiful, hardy wood that doesn't overheat.

ASPEN

Aspen's characteristic light tone and smooth texture is ideal for sauna benches because it doesn't secrete resin or get too hot.

THERMO-ASPEN

Thermally modified aspen is enhanced with heat and steam for exceptional durability and stability.

Heating options.

HUUM heaters are the perfect complement to your Thermory sauna, providing long-lasting heat and a stunning aesthetic.

HIVE

HIVE is designed for larger saunas like those found in spas and gyms. This floor mounted stove holds up to 550lb. (250kg) of stones.

12.0 KW	425–880 ft ³
15.0 KW	530–1,060 ft ³
18.0 KW	635–1,235 ft ³

HIVE MINI

HIVE Mini is suitable for smaller saunas and fits up to 333lb. (150kg) of stones.

6.0 KW	175–280 ft ³
9.0 KW	315–530 ft ³

DROP

With its signature water drop shape, DROP softens the sauna’s interior with a round design and compact profile. This wall mounted stove can fit up to 121lb. (55kg) of stones.

4.5 KW	105–245 ft ³
6.0 KW	175–350 ft ³
9.0 KW	280–530 ft ³

With a strikingly minimalist stainless-steel design, HUUM heaters bring a touch of elegance to your sauna while offering a high stone capacity for a mild and continual steam.

Talk to your sales representative about your heating options.
