

SAUNA^o

by THERMORY[®]

WELCOME
TO A WORLD
OF WELLNESS,
RELAXATION,
AND BEAUTY

Ready made elements
for custom saunas

Thermo radiata pine sauna, private house, Estonia.
Photo by Elvo Jakobson

Thermory has been producing quality wood products for over 25 years, and we offer a complete range of high-quality materials, ready-made elements, and accessories for sauna design. Whether you're looking for a complete sauna that's ready to install or individualized components to custom build your own dream design, we'll help you create a sauna space that looks great and leaves you feeling energized and refreshed.

Our broad range of wood species, profiles, and dimensions caters for a variety of styles, offering everything from standard sauna materials to distinctive products with novel designs that allow those with a bolder outlook to create a wellness space that combines convenience and practicality with striking visual features.

Our unrivaled range of options will ensure that you can design a sauna experience that's just right for you. And if you're looking for a quick and easy solution, we also offer a wide range of ready-made elements, from wall panels and bench boards to doors and accessories.

Walls and ceiling: Vire 1x3 thermo-aspens, bench: SHP 1x4 thermo-aspens.

We are Thermory®

Thermory is the world's largest manufacturer of chemical-free thermally modified timber and sauna materials. Over 90% of our sales are exported to more than 50 countries.

We're dedicated to offering real wood solutions that exceed expectations and enhance environments, and our product portfolio includes decking, cladding, and porch flooring made from thermally modified timber and coated wood products for interior and exterior use.

We are also a major player in the sauna, spa, and wellness sector; as the world's leading manufacturer of sauna materials and ready-made saunas, Thermory saunas can be found in homes and public spaces worldwide.

100% REAL WOOD PRODUCTS

QUALITY MATERIALS

An unbeatable range of wood species, profiles and finishes

INDUSTRY EXPERTS

Delivering superior quality and unrivaled beauty for over 20 years

SUSTAINABLE

Wood from sustainably managed forests with chemical-free modification

Ready-made sauna elements

Create perfect wellness and relaxation space with our ready-to-use sauna elements,

with bench sets, floor grids, and heater guards as well as doors and other accessories.

Leave a lasting impact

Thermory is a world leader in the thermal modification of wood. We offer high-quality, long-lasting solutions that benefit from environmentally friendly technology. We have spent the past two decades developing our expertise through close collaboration with architects, designers, builders and homeowners – constantly revising our product selection and refining our technology in the process.

Thermory promotes a transparent and responsible corporate culture. We care about the environment and treat nature with deep respect. Our purchasing process is environmentally responsible, and we exercise high standards for quality and sustainability. Our timber is carefully inspected and harvested from sustainably managed forests. If desired, we can offer PEFC, FSC or Nordic Swan Ecolabel-certified wood.

As a renewable resource that is both durable and an excellent insulator, wood is one of the most environmentally friendly choices for your construction projects. If you think it's important to protect our valuable resources long into the future, then we're on the same mission. We create lasting value, because we want to leave behind a more harmonious and sustainable world.
