Relaxed and refined

SPECIES:	SCOTS PINE
FINISH:	UNOILED OR PRE-OILED
COLOR:	GOLDEN BROWN
INSTALLATION TYPES:	VISIBLE, HIDDEN

Color transformation

Wood's natural aging process is influenced by how much exposure it has to the elements. The more the wood is exposed to UV light and rain, the faster its color will transform from brown to silver—sometimes in as little as six months. To maintain your wood's natural color outdoors, simply treat the boards with a penetrating UV protective oil.

Featured: Benchmark Ash
